

WORKFORCE ADMINISTRATION

Technology on the Go

More employees are working remotely and on-the-go, and employers need a reliable solution to accurately track their mobile employees. But beyond ensuring correct pay for time worked, labor laws have increased the pressure on accuracy of all employee time records. In addition to an increasing number of labor grievances, FLSA, FMLA and, of course, the Affordable Care Act are just a few regulations that demand precise labor records – even for your mobile employees.

iSolved GO is tailored for the iSolved product suite, giving employees and managers more access to the information they need, when they need it, without interrupting HR. Plus, iSolved GO is easy to learn, saving HR and payroll time and improving data accuracy.

iSolved GO features include:

Stored logins

Login credentials are stored securely in the app. No more entering info each time.

View paystubs

View your complete paystub and get a detailed look at earnings, deductions and taxes, all on one screen.

Mobile punch

A time clock in your pocket. Quickly punch in and out for work as well as for meals and breaks.

Request time off

Request time off right from your phone using the intuitive calendar.

View accrual balances

View all your accrual balances with just a few taps – current, pending and year-to-date taken amounts with a detailed breakdown.

Additional features:

- Update my information
- Change tax withholdings
- Direct feedback tool
- Full offline punch entry support
- View daily, weekly or pay period time card
- GPS location
- Group punches

iSolved® Technology on the Go is a part of the **Insperty® Workforce Administration™** solution.
